Photography Club of Beaufort announces "AWAKENINGS", a photography exhibit to mark the beginning of Spring in the Lowcountry.

The exhibit is hanging in USCB's Performing Art Center's gallery on Carteret Street during March, just as the area begins to awaken from winter sleep. More than half of the 70 member club participated and photos are available for sale, with a portion of the proceeds benefiting the Performing Arts Center and the Photography Club. The exhibit will be open through March 31 during the colleges normal hours of business.
