The work of artist Anne Kennedy will be featured at the Beaufort Art Association (BAA) starting March 1st and running through April 26th. The theme of her exhibit is “Hot Wax, Cool Paintings” featuring encaustic painting, which is an unusual blend of hot wax with pigment.

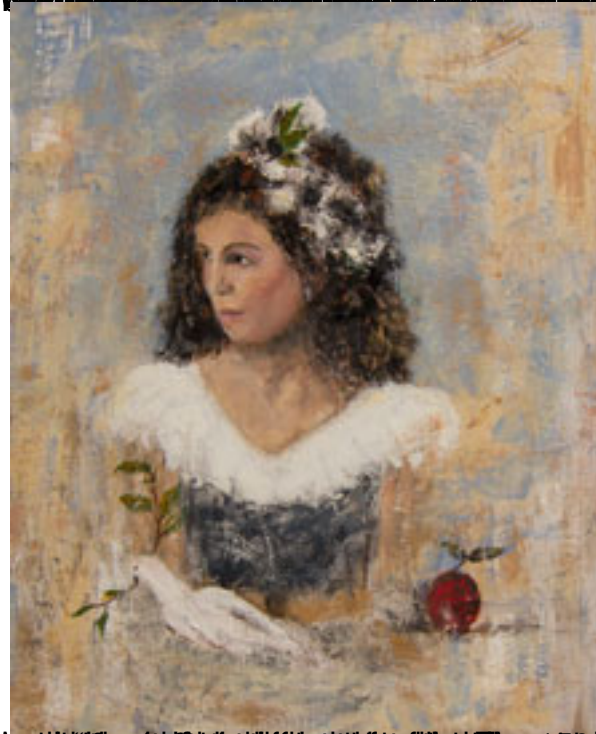

An opening reception will be held at the Gallery at 913 Bay Street in Beaufort on Friday, March 6, from 5 to 8 pm. Light refreshments will be served. There will also be on exhibit the work of 65 other local artists, who are members of the Gallery. The public is invited.

Kennedy started her career as a cytologist, which she says was defined by “looking for the smallest of changes in shapes and colors of cells of the human body using a microscope. For many years, this was my art,” she says. “Now, I work in oils, mixed media, alcohol inks, and my passion, encaustics.”
