Habersham has recently designed a “Discovery Trail” blazed with birdhouses to guide visitors through Habersham’s Marketplace and into Habersham’s award-winning New Urbanism landscape. Habersham’s Discovery Trail gives guests a taste of its walkable neighborhood, amenities, restaurants, retail shops, and health and wellness businesses. It was scheduled to open at Habersham's Third Friday celebration on March 20, but that event has been canceled due to the coronavirus pandemic. Habersham hopes to reschedule soon.

“When the Merchant’s Council presented the idea, it checked the right boxes. Our neighborhood is designed for walkability, and Habersham celebrates nature and the beauty of the Lowcountry. The trail and birdhouse waypoints highlight Habersham amenities, and it gets people into our marketplace to visit our restaurants & shops,” said Patrick Kelly, Habersham Land Company.
